

BIOSEM NEWSLETTER N5

BIOETHICS AND SUSTAINABLE ENVIRONMENTAL MANAGEMENT IN SCHOOLS (2022-I-SI01-KA220-SCH-000086423)

ERASMUS DAY IN ITALY AND TURKEY

Great news! Our partners organized and hosted the Erasmus Day events in both Italy and Turkey. This reflects a wonderful initiative to celebrate and showcase the achievements and opportunities associated with the Erasmus program. Congratulations to all involved!

THE BEJTULLA'S EVENT

Bejtulla Demiri, at International Balkan University (IBU), conducted multiple meetings to investigate the potential of Jurgen Habermas's discourse theoretical perspective in advancing the conceptualization, promotion, and popularization of bioethics.

PROJECT FACEBOOK

»TEACHING BIOETHICS IN HIGH SCHOOL: OPPORTUNITIES AND CHALLENGES«

Dr. Roman Globokar, serving as the BIOSEM project coordinator, passionately presented the project's comprehensive content to colleagues during insightful discussions at various international meetings. Through these engagements, he highlighted the project's objectives, methodologies, and the significance of integrating bioethics and sustainable environmental management in educational settings.

TPM4 BERLIN

From the 16th to 17th of November 2023 took place the fourth transnational meeting in Berlin. Project results progress and future tasks were discussed.

We are very pleased to announce that the Turkish Central Support Service has awarded with the National Quality label our Project!! Congratulations to our teachers!!

WHAT IS NEXT

Learning and Training activity in Macedonia!
